

REMARKS

Claim 1 has been amended to make it clear that data is obtained from the stream and the data is placed into the frames. Therefore, the relationship between the parts should now be clear.

Claim 15 has been amended to include the material added to claim 24 and, for the same reasons, claim 15 should now be in condition for allowance.

In view of these remarks, the application should now be allowable.

Respectfully submitted,

Date: October 9, 2007
